“Thank you for working with us on our purchase. We've received many wonderful compliments and are thrilled with the shed. The construction is amazing and it really adds a nice touch to our property.

While the delivery was delayed a day, we were really impressed with the care taken to offloading the shed. He also was very accommodating to finding just the right placement. It was unbelievable to see him do this all alone.

Thank you again for a great product that we will enjoy for many years to come.”

“Hope your summer is going well. I finally have some pictures of our shed for you. It really looks great—as if it has been here for years. Everyone who has seen it loves and has marveled at the workmanship and the wood components in it (as do I).

Hope you enjoy the pictures and thanks again.”

“The pool house arrived safely. It is so beautiful. Keith, the driver, is incredible. He guided it to its new pad perfectly. He had two sheds on the trailer when he arrived. Another hour and he could have sold them both on the street. They were both so adorable. I would love to have had both myself. Thank you for your beautiful work.”

“We wanted to let you know how happy we are with the beauty and quality of our shed. It is wonderful to know that there are still true craftsmen out there. We are so glad we found Gardensheds. This building is destined to become the focal point of our yard. The building complements the area perfectly-- the craftsmanship is perfect as well. Please relay to the builders what brilliant artists they are.”
